SUMMARY

Software development student at **UM6P** in **1337 Coding School**, specializing in **full-stack development** and **machine learning**. Actively seeking opportunities to apply my skills and contribute to impactful tech projects within a dynamic team.

EXPERIENCE

UM6P

Jul. 2025 – Jan. 2026

Back-end Developer Intern

Benguerir, Morocco

- Developed **Spring Boot APIs** for a pharmacy management system, implementing business logic and secure data access with **Spring Security** and **Spring Data JPA**.

PROJECTS

Transcendence

🔗 Repository

- Developed a full-stack web app for playing ping pong with user accounts, matches, and tournaments using **Django**, **PostgreSQL**, **JavaScript**, **HTML**, and **CSS**.

Inception of Things

🔗 Repository

- Created a **DevOps** project focused on **Docker** and containers to build and manage services in isolated environments.
- Designed and deployed an automated infrastructure pipeline utilizing **K3s**, **K3d**, virtual machines, and **GitOps** practices.

Webserv

🔗 Repository

- Built a simple **HTTP web server** written in **C++**, inspired by **Nginx**, supporting **GET**, **POST**, and **DELETE** methods.

Credit Card Fraud Detection

🔗 Repository

- Developed a **machine learning** classification project for **credit card fraud detection** in **Python**, successfully handling **class imbalance** and **outlier capping**.
- Utilized models such as **logistic regression**, **random forest**, **neural networks**, and **XGBoost** to ensure accurate classifications.

EDUCATION

UM6P - 1337 Coding School (42 Network)

Oct. 2023 – Present

Software Development

Benguerir, Morocco

SKILLS

Programming Languages : C, C++, Python, Java, JavaScript

Web Development : HTML, CSS, React, Django, Spring Boot

Machine Learning : Pandas, NumPy, Neural Networks, RAG, scikit-learn, Matplotlib

Tools & Technologies : Docker, Figma, Git, Linux (Ubuntu), Bash, Make, VS Code

LANGUAGES

Arabic : Native

English : Intermediate

French : Conversational
